

American Partnership for Eosinophilic Disorders

Eosinophilic disorders are life altering incurable diseases that affect both children and adults. The American Partnership for Eosinophilic Disorders (APFED) is a non-profit organization dedicated to patients and their families coping with these disorders. APFED's Mission is Education, Awareness, Support and Research. Your tax deductible donation will help support those affected by eosinophilic disorders.

www.apfed.org

Imagine the aroma of a fresh baked apple pie, the texture of your favorite Halloween treat, and the warmth of a cup of hot cocoa at a football game – now **imagine** you can no longer enjoy these foods – ever. Many children and adults with eosinophilic disorders live without food in a food-focused society, fed by a surgically implanted feeding tube. **Imagine** living like this, not knowing anyone who shares the difficulties of day to day life with the foods we all take for granted... Now **imagine** this scenario is a reality for your family. **What would you do?**

While your son, daughter, grandchild, niece, nephew or neighbors are out Trick-or-Treating for candy on Halloween, Gabriella will be collecting nickels, dimes and quarters (dollars and checks welcome too ☺) for APFED. Please support Gabriella and APFED this Halloween season.

Bud and Lee Ann Provenzano

APFED is a 501(c)(3) tax-exempt entity. All donations are tax-deductible. Please make checks payable to APFED.
